PROJECT SUN STREAK (U)

CRV SESSION PROCEDURES REPORT

WARNING NOTICE: INTELLIGENCE SOURCES AND METHODS INVOLVED

CONTROL NUMBER: 8712 NICKNAME: None
 DATE OF SESSION: 31 Aug 87 TARGET COUNTRY: Iran
 REFERENCES: None SESSION NUMBER: 01
 DATE OF REPORT: 1 Sep 87 MISSION STATUS: Continuing
 TECHNIQUE UTILIZED: CRV SOURCE IDENTIFIER: 003

1. (S/NF/SK) INTERVIEWER TASKING: Determine the possibility of Iranian attacks against US Naval vessels and/or vessels of US Naval interest. To accomplish this tasking the Source is to be directed to view three separate "windows" in the future. These windows are the week of 6 September, the week of 13 September and the week of 20 September 1987. Each window is to be examined separately and in its entirety to determine Iranian intentions and actions during that reporting period. If an attack is perceived the Source is to be tasked to provide all relevant information pertaining to the attack. (US-flagged ships)

2. (S/NF/SK) SOURCE TASKING: Prior to the session, Source was told that He was to re-acquire a previous signal line from a series of session² He participated in within the last two weeks. He was specifically told re-acquire the site where He had been tasked to seek out specific weapons in an arid area and to determine intended use of those weapons. In this new mission, Source was advised that He was to return to the same area but not to be concerned with any specific type of weapons. In lieu of that He was to determine the use of any weapons by forces in this area during time windows which He would be provided with in the actual session. & report on the region where the weapon is located. Source did not require the reading of the previously provided coordinates since He was able to easily re-acquire the signal line and move immediately into a Stage Four reporting matrix, a phase of the Coordinate Remote Viewing (CRV) in which the Source is receiving both physical as well as conceptual perceptions of the target area and is able to report this data in a concise and useful manner. (8711 tasking - coordinates?)

3. (S/NF/SK) INCLEMENCIES: There were no unusual incidents or anomalies which may affected the data provided by Source during this

A: SPR 03-12.#01

Tasking must be against US flag ships

session. Source was not told until just prior to the session that He would be operating in the CRV mode as opposed to the Extended Remote Viewing (ERV) mode. This did not appear to have any detrimental affect on His ability to quickly adapt to the proper viewing mode and to report non-ambiguous and concise information throughout the session.

4. (S/NF/SK) SUMMARY: Source furnished the attached summary which was prepared by Him and provided to the Monitor within 24 hours after the session. The completeness of the typewritten summary has been compared to the Monitor's notes and all changes, deletions and corrections have been verified as accurate and acceptable by the Interviewer. The information provided in the summary was found to be complete and did not require further modification, clarifications or additions by the Monitor. The nature of the targeting did not merit attempts by the Source to provide accompanying sketches since the data provided dealt more with conceptual ideas and planned activities rather than actual physical items.

5. (S/NF/SK) COMMENTS: This was the initial session on this project utilizing this Source. By providing Him with the specific cues concerning His previous sessions, the re-acquisition of the signal line was expedited without any apparent loss of operational integrity. Source was tasked only on the first two of the above cited "windows". In the next session, the final window will be examined and if need be additional data on the other two windows already examined will be obtained.

A group of men in light colored shirts, presenting the idea of a militia, or relatively informal military group, whose various tasks and missions include defending against something, guarding, watching, are overly concerned about an external threat that isn't as serious as they want to believe but which their very actions may aggravate to the extent that it does become more of a threat. This group carry personal weapons and accouterments, and are dressed only in a marginally uniform fashion. They seem relatively "low budget," in that their equipment and clothing displays a very diverse range of quality and repair. Explosives, vehicles and rifles are involved, as perhaps are mortars. They occupy a very large area, which is austere, bleak and barren over major portions of it. There is some dispute over control of this area. They seem to be third world in situation, with a possibility being Middle Eastern. They are passionate and vociferous, wildly supportive of a cause when they become emotionally involved. They are loosely organized, and darker in complexion.

[timeline]

Over the period 31 August 1987 to 3 September 1987 there is a sense of growing anxiety and disquiet, and building tension and excitement through approximately 1 Sep and coming to an abrupt peak, perhaps around the middle of 2 Sep then falling rapidly off to the first part of 3 Sep, after which a sense of calm/dissipation/aftermath prevails. The peak represents some sort of intense involvement or activity, planned for sometime around then, and now culminating and arriving at fruition. Situation involves violent or potentially violent activity. Several structures are involved--artificial structures--they move and have lots of metal in them.

Beginning around 31 Aug-1 Sep these people gather in proscribed groups according to task and mission. Activities involve preparing equipment. A person standing in front of each group is speaking to/instructing them. They then move to assigned locations. Some are also preparing bigger equipment, "like" heavy weapons. Waiting--tension increases--for specific time to come. Then, it's as if the activity reaches a high crescendo, just before culmination, then falls off/fall apart. There's an impression of figures lying around on the ground. It's as if the situation didn't turn out the way it was intended. Something occurred that was outside the leaders' control. The effort involved meticulous planning and coordination as well as confidentiality, but some things couldn't be planned for or dealt with, and one of these occurred. It was "like" a bolt of lightning out of the blue came down and took the top off the effort. Swift, precise, premeditated, timed, and "surgical" are words that somehow apply to the situation. This "interdiction" is not intended to destroy altogether, but to eliminate the direction and leadership, allowing the rest to disperse and "dissipate." Immediate results (c): Sense of sudden, sharp, unleashed, contained, controlled, violent action aimed precisely, released, and then reigned in. Impression (AOL/S) of dead people--maybe more than 50, with the number 84 manifesting itself in some connection.

There is a sense of "aftershocks"---violence or unrest in connection with the events identified as occurring 1-3 Sep. The first seems to happen 4 Sep, wherein a smaller group is involved. It is a sudden, violent, intense, futile, fanatical, emotion-laden action as a retaliation/revenge/response to the previous major occurrence. It's like a "last serious gasp"; the object of violent action seems to be military in nature, "like" a headquarters building, admin center, or something--a relatively "soft" target in an urban area. Other events (5, 6, 7 Sep) are more minor and reactive in nature. Event on 9-10 Sep involves a large group of people and a low level of violence "like" a demonstration of some sort, as if in protest of something.

IN THOSE SESSIONS YOU WERE IN AN ARID CLIMATE ATTEMPTING TO a) FIND SPECIFIC WEAPONS b) TO DETERMINE A FUTURE USE. TODAY I WANT YOU TO REACQUIRE THAT SIGNAL LINE AND I'LL PROVIDE YOU MORE DEFINITIVE TASKING. YOU NEED TO KNOW YOU NO LONGER HAVE TO ONLY CONCERN YOURSELF WITH THE SPECIFIC WEAPONS REPORTED ON BEFORE. INSTEAD YOU NEED TO FOCUS ON THE USE OF ANY WEAPONS IN THIS TARGET AREA.

(Pg 3) - 1.

██████, tell me about these people. Perhaps a better insight into them will help to understand the mission -

(Pg 3A) - 2

You have told me about a third world people, organized, armed and dedicated to a cause. On a separate sheet I want you to make a timeline. Begin today and draw it as long as you need it to include the period 3 September 1987. Now mark off the significant events of that time line.

(Pg 3A) - 3

I notice you have bracketed one section. Tell me about those brackets.

★

They don't mean anything. I just put the 3rd in the wrong place.

(Pg 4) - 4

okay, I need you to put your comments down on paper and to come back into structure to explore those concepts, especially the "peak" you described.

(Pg 4) - 5

Let's matrix out the "event" or "violent action"

(Pg 4) - 6

Let's move towards the event - Describe the activity as you move towards the event.

- Break - (1329) Return 1336

(Pg 5) - 7

You're approaching a culminating event but you have seemed to hit a bar of some sort

(3)

(P95)-8

"Something unplanned for" - You might want to examine that a little closer -

(P95)-9

The Source of the interdiction? I'm still confused -

(P95)-10

Within the timeframe you are working - Examine the immediate results -

(P95)-11

Dead people. Give me a general appraisal - "a few" "some" a "large amount"

(P96)-12

You may be attempting to describe too much in the short time line. Move to another time line beginning on 3 Sep, include 3 Sep, and covering the period up to 13 Sep, include 13 Sep. Again describe the significant events on that time line.

(P96)-13

The early spike (Event #1) - can you perceive the target of their revenge.

(P96)-14

You stated they hit a military headquarters and then used the phrase a "soft target." That seems a bit incongruous -

Other events on 5, 6, 7 Sep are "like" earthquake aftershocks - outbreaks of short brief, lesser intensity violent activity by those associates with the "militia-like" group.

Event #5 on 9-10 Sep, is large people low level of violence - not sig "like" a demonstration of sentiment as if in protest of something.

Event 1 is like a "last serious gasp" - ~~the~~ object of violent attention - seems military in nature - "like" headquarters bldg, admin center, or something - a red hot "soft" target. In an urban area - military, but not as well defended, protected, & able to defend itself.
